## Our Mission

Quick and Simple Imports is a direct importer with deep roots in the pet cremation industry. QSI specializes in supplying our clients with standard cremation products, but we also work to design and obtain custom products for our customers, too. At QSI, our goal is to add value to your business by providing high quality products at amazing prices.

## Our Story

Quick and Simple Imports was founded in 2013 when two longtime friends, Ryan Bator and James Michalski, set out to start a business of their own.

Ryan was working at a pet crematory at the time, where he took a special interest in inventory and supply chain management. He experienced firsthand the challenges of maintaining supplies and keeping costs down for a growing cremation business, and this inspired him to find a solution for his employers.

James, who has over a decade of experience in the financial services industry, knew this was an opportunity to not only improve the bottom line for pet crematories like Ryan's employers, but also as an opportunity to create and cultivate a business founded on providing quick and simple solutions to inventory and product sourcing problems.

So, the two set out to solve their first customer's problem and QSI was founded.

From the onset, Ryan and Jim knew that QSI's strong foundation set them apart from other importers. Ryan's experience teaching abroad in China afforded the pair the ability to assemble a skilled, dependable team overseas. After months of research and multiple visits to China and India, the team at QSI not only located reputable factories to manufacture their customers' products, but they were also able to import and sell them for nearly 30% less than what their customers were accustomed to paying.

Today, QSI continues to source products for crematories and other small businesses from all over the world while also offering full supply chain management, freight forwarding, warehousing, and distribution services.

While QSI imports products for many different industries, Ryan and James have stayed loyal to where it all began: pet cremation supplies. QSI has expanded their product offering for 2023, and now proudly imports an even wider selection of standard and custom pet cremation supplies, all available to you at industry-best prices. We invite you to explore our collection of products featured in this catalog and look forward to receiving your call!

# Clasp Urns

***Small: 40 Cl, Large: 128 Cl, Extra Large: 171 Cl***

## **PRODUCT DESCRIPTION:**

Elegant yet affordable MDF urns. Most of today's standard pet urns are designed to lock away your pet friend, never to be seen again. However, QSI wanted to make "seeing" them easier while still maintaining the sanctity of their cremated remains. That is why we designed a clasp urn that opens to reveal a beautiful, natural burlap pouch holding a pet's cremains, with enough room to also store a collar or favorite small toy.

*Available in Small, Large, and XL*

## Testimonial

“We have been working with the team at QSI for several years now. They have been a great partner, not only helping us to streamline our purchasing, but also upgrading our value offering to clients. This is the case most notably with the gold clasp urn they sourced for us. It is a great product, at a price point that allowed us to include it as our standard option. It EXCEEDS clients expectations, which is exactly what we wanted to accomplish. The team at QSI has gone above and beyond through the years to exceed OUR expectations, which is what I want as a customer.”

Joseph Santeiu  
Vice President of Business Development – Faithful Companion

# Slide **Bottom** Urns

*Small: 28 CI, Medium: 73 CI, Large: 138 CI*

## **PRODUCT DESCRIPTION:**

For customers that prefer an urn that remains closed, the QSI slide bottom urns are a fantastic and economically priced option. Manufactured from high quality MDF, gone are the days of slides not operating properly because of expansion/contraction of the wood. These urns are perfect for engraving and/or adding custom name plates.

*Available in Small, Medium, and Large*

## **Testimonial**

"We couldn't be more pleased with the slide bottom urns that Ryan and James of QSI helped us to transition to. We really like that you can engrave directly onto the urn or add a brass nameplate for personalization and they both look great. The quality and appearance of these urns is superb!"

Bryan Johnson – Nansemond Pet Cremation – Suffolk, VA

# Bamboo Urns

## PRODUCT DESCRIPTION:

If you're seeking more eco-friendly urn options, then our natural bamboo urns are a great choice. Bamboo is a fast growing and naturally renewable tree-like grass that thrives in the humid climates of Southeast Asia. One of the biggest environmental benefits of bamboo is its ability to absorb carbon dioxide and produce oxygen. Compared to an equivalent tree mass, bamboo can produce up to 35% more oxygen. It also grows at a much faster rate than trees do, and some species can grow up to 3 feet per day! Recent studies show that nearly 75% of U.S. consumers are now basing purchasing decisions off how eco-friendly a product is. So, QSI is now proudly importing a full line of eco-friendly bamboo clasp urns, slide bottom urns, and scatter tubes.

# Mango Urns

## PRODUCT DESCRIPTION:

When most people hear the word mango, they immediately think of a delicious tropical fruit. But did you know that Mango trees are also a highly sustainable type of hardwood? Mango trees grow incredibly fast and reach full maturity in only 10-15 years. As a means of comparison, Oak trees reach full maturity in 75 years. As the trees approach their maturity, they produce less, and less fruit and mango farmers eventually cut them down and replace them with younger fruit bearing trees. Since they grow so fast and would be cut down by farmers anyways, it makes mango a well-priced, sustainable hardwood suitable for making our beautiful photo frame urns and scatter tubes.

*Small: 45 Cl, Medium: 80 Cl, Large: 142 Cl*

## PRODUCT *DESCRIPTION:*

Sheesham, a sustainable alternative to the endangered Indian Rosewood, is a deciduous tree native to India. Known for its strength and beautiful rich grain patterns, it is a perfect choice of wood for cremation urns. The team at QSI spent countless hours touring factories all over India to locate the best and most reputable manufacturers of Sheesham urns in the world. Each of our Premium Sheesham urns is hand-crafted and carved by skilled artisan craftsman in the cottage industry of Northern India. Each urn is constructed from hand selected slabs of legally and sustainably procured Sheesham wood. These urns are the highest quality available in today's market and are sold at prices that will not break the bank.

## Testimonial

"Quick & Simple Imports has been a great partner to us in helping us design and produce beautiful branded, high quality paper bags that match our other marketing materials, keeping our look and brand fresh in the increasingly competitive pet industry. QSI continues to offer us new opportunities in our pet urns and cremation supplies product lines, helping us maintain consistent pricing and high-quality products to our franchise network and the veterinarians and families they serve. "

Jani L. Thieme - Northern IN Crematory Corp. - Fort Wayne, IN

# Standard Sheesham Urns

**Small: 17 Cl, Medium:  
40 Cl, Large: 87 Cl,

## Testimonial

“We have been working with Quick and Simple Imports to source multiple products for several years now. Recently, QSI helped us quickly secure a supply of Sheesham urns while the rest of the industry had backorder status. Not only were they able to keep us fully supplied during the global pandemic, but they were able to lower our overall product cost too! The team at QSI has proven itself to be an invaluable partner time and time again.”

Chris Santeiu – Vice President  
Faithful Companion  
North Carolina

# Tin Urns

*Extra Small: 15 Cl, Small: 25 Cl,  
Medium: 58 Cl, Large: 103 Cl*

## PRODUCT DESCRIPTION:

Our tin urns feature beautiful images printed in high definition and are perfect for both pawed and non-pawed pets. Currently, we offer tins in three patterns: an ethereal meadow of wildflowers, a calming rainbow scene with paw print accents, and new for 2023, a blue marble design. Our tin urns can also feature your crematory's custom artwork, a great option for high-volume customers. Our team is ready to help you design, manufacture, and deliver tin urns with contemporary, tasteful images that your customers will love.

*Available in Extra Small, Small, Medium and Large.*

# Pet Body Bags

## PRODUCT DESCRIPTION:

Our durable yet affordable pet pouches were designed by cremation experts as an easy and efficient way for veterinarians and staff to respectfully store and transport beloved, deceased pets before cremation. Our pouches are expertly crafted using waterproof material and heat-sealed seams that are 100% leakproof, preventing undesirable messes during storage and transport. In addition, each bag is complete with a permanently affixed ID label to ensure that all pets are properly identified. Not only do these pouches increase the level of dignity during the aftercare process, but they are made without PVC or chlorine, making them eco-friendly for traditional cremations.

*Available in Small,  
Medium and Large.*

**601**

**Small Pet Body Bag**

# Custom Return Bags

## PRODUCT DESCRIPTION:

Are you looking for another way to separate yourself from your competition and increase the level of dignity in your cremation service? QSI can help you do just that by sourcing high quality paper return bags that can be totally customized from top to bottom. You get to select the size of the bag, color scheme, and rope color in addition to including your logo, a short poem, etc. These bags are made and printed on heavy card stock and are a major improvement in quality to the kraft bags most crematories use for returns. Custom order/ non-stock item.

\*Please allow 12-14 weeks for delivery

## Testimonial

"The paper bags we purchased from QSI for the return of our services were absolutely perfect! The color, logo display and accent handles were exactly what we were looking for. The bags are also very sturdy and were just what we needed for returns."

Heath Olinger – Owner – Paw to Paw Pet Cremation - Dallas, TX

# Velvet Bags

## PRODUCT DESCRIPTION:

Our velvet pouches can be used as urn bags or to hold cremated remains. Each bag is sewn from high quality velvet material with durable ropes for easy closure. Our printed pouches are crafted using an embossed printing method, creating text that is crisp, sleek, and easy to read. Available in three different styles and sizes. "Together Again We Shall Be", "Until We Meet Again At The Rainbow Bridge", or plain (no text).

*Available in Small, Medium, Large, & Extra Large*

# Shadow **Box** Frames & Shadow **Box** Urns

## PRODUCT *DESCRIPTION:*

Our Shadow Box Frames offer families the perfect way to display their pet's paw print, making these frames a great addition to existing paw print packages. The frame side includes a copy of the Rainbow Bridge Poem, which can be removed and replaced with a 4" X 6" photo. The shadow box side is large enough to secure a clay paw print and name plate. (Clay and name plate not included)

*Available for Small and Large Breed Pets*

**1107**

Black Paw Print Shadow Box Frame  
Large Breed (10 pcs. per case)

**1110**

Black Paw Print Shadow Box Frame  
Small Breed (10 pcs. per case)

## PRODUCT *DESCRIPTION:*

These shadow box frames double as an urn and a place to display a pet's clay paw print. Just like our standard shadow box frames, one side has a shadow box large enough to secure a completed paw print. The opposite side has a special compartment behind the Rainbow Bridge poem or photo to safely and securely store a pet's cremains.

*Available in Small and Large.*

**1108**

Black Paw Print Shadow Box Urn  
Small Size - 36 Cl (10 pcs. per case)

**1109**

Black Paw Print Shadow Box Urn  
Large Size - 91 Cl (10 pcs. per case)

# Permanent Impressions Polymer Clay

## PRODUCT DESCRIPTION:

A clay paw print is quite possibly the best memento a pet owner could receive to remember the life of their beloved pet. However, for many pet crematories, finding an affordable and readily available clay product can be a big challenge. You need a clay that's soft and easy to work with, that makes a detailed impression, and that won't break the bank.

We are pleased to announce that QSI is now importing a high quality, low-cost, super soft polymer clay that will allow you to create beautiful and durable clay paw prints for the families you serve.

Making paw prints is **Quick and Simple** when using our **Permanent Impressions Polymer Clay**. Simply knead a piece of clay and form it into a ball, flatten it to your desired thickness, and make your impression. Before you finish, customize your paw print with the pet's name, add a charm or two, then bake for 20-30 minutes at 265 degrees. Each bar of our clay should yield approximately 2.5-3 paw prints.

**\*Unused clay should be stored in an airtight container**

**\*Clay must be stored below 77 degrees F**

## Testimonial

"If you haven't tried the new QSI clay, you are missing out. QSI clay is a timesaver! Much easier to work with than other brand name clays. Our paw prints turn out perfect every time with no cracks or dryness. Our team would like to thank you for this new addition to your product line."

Pam S.

Owner at Family Pet Cremation Centers - Gaylord, MI

## Testimonial

"We've recently begun using the polymer clay from QSI and - wow! What a game-changer! This clay is so much easier to work with than air dry or other brands of polymer clay. The paw prints come out fantastic! We are never going back to another clay."

Sara R.

Pet Loss Specialist at Pet Lawn-Pet Loss Services - Milwaukee, WI
